Admired for excellence

What do people think of your school? From the public face you present to health and wellbeing, the quality of cleaning you receive has an impact.

Can you make a fresh, professional impression while walking the tricky tightrope between quality and value for money?

It's not easy - but we believe the answer is to do things the Gurkha Way. And since 2006 customers across Kent have agreed, trusting Kent Gurkha Company's professionalism, reliability and work ethic.

These values form our philosophy and guide our efforts. Whatever the background of our staff, we share this core devotion to delivering outstanding cleaning results. Creating high standards which will lift your environment to new levels with the aid of silky smooth operations.

Let us demonstrate the Kent Gurkha difference and how your school can look better than ever.

Effortlessly conscientious

Getting things right doesn't have to be hard work.
So we manage your contract to make life a little easier.

From the start of our relationship we will design a tailored package for you to deliver both service and value. Working together we will create a comprehensive cleaning programme, set targets and put in place the right team. Handovers and transfers will be conducted smoothly.

Once underway you hopefully won't notice us much. But you will notice the results. And be happy.

If things appear easy on the surface, that's because of the hard work happening in the background. We monitor your contract in detail – with frequent Quality Control audits, reviews and performance monitoring. We track

our achievements, and can identify at an early stage any problems or opportunities for new procedures to benefit you.

Superior performance and outstanding value - that sums up the Kent Gurkha difference.

Shining stars

Achieving stunning results depends on the people doing the job. And at Kent Gurkha we believe ours are special.

We have a team of long-serving, loyal employees, and we value them highly. Experienced and dedicated, we also help them stay happy and motivated. That means better performance - and better results for you.

We comprehensively vet and verify all staff for your safety and security, with DBS certificates in place for all. Most come recommended to us, often from backgrounds associated with the

military. We provide them with training to BICSc standards for both cleaning techniques and essential health and safety. We choose the best so you receive the best.

Quality people working to the Gurkha philosophy - it makes for a formidable cleaning team.

Working with schools
